Answer Key — Railways Speed Sheet (Group-D / ALP / NTPC-mix)

GOVT-RAIL-SPEED · 2026-05-30

1. **C**

$15 \times 0 = 0$ ;  $15 + 0 = 15$  (multiplication before addition).

2. **D**

10% of 1000 = 100; 10% of 100 = 10.

3. **A**

1 pencil =  $20/4 = 5$ ; 10 pencils = ₹50.

4. **B**

Multiples of 5; next is 25. Hence the correct option follows from this step.

5. **C**

Average =  $(10+20)/2 = 15$ . Hence the correct option follows from this step.

6. **D**

Speed =  $100/5 = 20$  m/s. Hence the correct option follows from this step.

7. **A**

Half of 250 = 125. Hence the correct option follows from this step.

8. **B**

2,4,6,10 are even; 9 is odd, so it is the odd one out.

9. **C**

The number after 199 is 200. Hence the correct option follows from this step.

10. **D**

If today is Friday, yesterday was Thursday.

11. **A**

$20 \times 5 = 100$ ;  $100 \div 2 = 50$ . Hence the correct option follows from this step.

NAME: \_\_\_\_\_

ROLL NO: \_\_\_\_\_

BATCH: \_\_\_\_\_

12. **B**

Perimeter =  $2(6+4) = 20$  cm. Hence the correct option follows from this step.

---

13. **C**

$1/5 = 0.2$  is the smallest of the four fractions.

---

14. **D**

$30/150 \times 100 = 20\%$ . Hence the correct option follows from this step.

---

15. **A**

Letters skip one (A,C,E,G); next is I.

---

16. **B**

One egg =  $60/12 = ₹5$ . Hence the correct option follows from this step.

---

17. **C**

$9^2 = 81$ . Hence the correct option follows from this step.

---

18. **D**

Day is opposite of night; hot is opposite of cold.

---

19. **A**

$6 \times 8 = 12 \times d \Rightarrow d = 4$  days. Hence the correct option follows from this step.

---

20. **B**

$7 \times 8 = 56$ . Hence the correct option follows from this step.

---

21. **C**

Each term doubles:  $24 \times 2 = 48$ .

---

22. **D**

25% of 200 = 50. Hence the correct option follows from this step.

---

23. **A**

Alphabetically, A comes first.

---

24. **B**

$99 + 1 = 100$ . Hence the correct option follows from this step.

---

25. **C**

Profit =  $60 - 50 = ₹10$ . Hence the correct option follows from this step.

---

26. **D**

The next even number after 48 is 50.

---

27. **A**

1 kilometre = 1000 metres. Hence the correct option follows from this step.

---

28. **B**

$7 + 2 = 9$ , following simple addition.

---

29. **C**

Double of 35 = 70. Hence the correct option follows from this step.

---

30. **D**

A triangle has three sides. Hence the correct option follows from this step.

---
